

# Loan Tower and Tax Counsel

The royals and nobles in Europe have been concealing trillions in private bank accounts in Switzerland, Luxembourg, and Liechtenstein. They provide loans to the Bank for International Settlements which then provide loans to banks. Through this fraudulent system using interest rates and fees they steal taxes from nations. The Erlach family are an old Bernese Swiss nobility that ruled in Berne for centuries and were involved in politics and military. They take their name from the town of Erlach which produced a division of Swiss Guard and mercenaries that served German princes and the French monarch. Today their Erlacherhof mansion is the office for the mayor of Berne. The family still lives in Switzerland and is involved in banking and law. Rudolf von Erlach and Andreas von Erlach are international corporate lawyers. The company CMS von Erlach Poncet operates in Switzerland providing tax law services internationally and is headed up by the German Chairman Cornelius Brandi. Cornelius Brandi is an expert with corrupt loopholes involving tax law and financial transactions. Ernst Brandi and his son Albrecht Brandi were involved with the Nazis. Ernst Brandi was a top member of the Secret Meeting of February 20th which were German industrialists that organized the financing of the Nazi Party. The Nazis were involved in creating and running the Bank for International Settlements in Basel, Switzerland. Banking in Switzerland is private and enables the concealment of wealth and more importantly making criminal pay offs which they conceal as loans. The BIS works as a middle man for smaller banks for international transactions as well as with central banks. The Bank for International Settlements has major leverage over central banks. It is called the central bank for central banks. Criminals working at CMS von Erlach Poncet are the advisers for Swiss bankers and their clients. Eric Sarasin is of Swiss nobility and involved in wealth management, banking, and tax advisement. Count Philippe de Felice-Grin-Ruttley is a Swiss noble with Italian titles and works as an international lawyer. He worked for Rome, the United Kingdom, European Union, and he currently works for Ince & Co.

The Gutzwiller family are the top Swiss banking family and they own their Gutzwiller private bank headed up by Stephane Gutzwiller and Francois Gutzwiller with Prince Lorenz as a managing partner. The Gutzwillers also manage about 35 other Swiss banks with Jurg Gutzwiller as CEO of Entris Holding. Jurg Gutzwiller and Prince Lorenz of Belgium are also board directors for Six Group which provides securities transactions, financial intelligence, and banking services. Some top criminal Swiss bankers include Baron Frederic Hottinger and Baron Rodolphe Hottinger as the primary owners of Hottinger & Cie Groupe Financiere and Financiere Rodolphe Hottinger. Peter Hottinger is the CEO of the global wealth management company called Pilotage. Philippe Hottinguer is another high level French-Swiss banker and founder and head of Philippe Hottinguer Group based in Paris, France. The Hottinguers in France also founded and run Banque Hottinguer with John-Philippe Hottinguer, Jean-Conrad Hottinguer, Stephanie Andre-Hottinguer, and Emanuel Hottinguer as the management for this French bank. Prince Lorenz of Belgium is a managing partner at Gutzwiller Bank in Basel, Switzerland. Archduke Sigismund of Habsburg-Lorraine covertly manages Swiss accounts for some royals and has been covertly overseeing Landolt & Cie Banquiers. Arch Duke Rudolf von Habsburg-Lorraine runs Triple A Gestion in Switzerland with his brother. Prince Eric Sturdza of the Romanian Sturdza family owns the Swiss Banque Eric Sturdza. Baron Benjamin de Rothschild owns Edmond de Rothschild Group and handles finances of criminals in Israel. Prince Maximilian of Liechtenstein is an owner of Liechtenstein Global Trust which includes Swiss branches. Lorenzo Rocco di Torrepadula is from an Italian noble family and works at REYL private bank in Switzerland. Eric Sarasin sold his family's Swiss bank Bank Sarasin & Company to the Safra family with Joseph Safra who is

worth about 24 billion. Safra Group has about 70 billion in assets. The Sella family of Piedmont are a merchant banking family which established Banca Sella Group in Italy with offices in Switzerland and they are working as the Court Factors for the merchant-banking House of Borromeo. The architect Johann Bernhard Fischer von Erlach designed Karlskirche or Saint Charles Church dedicated to Cardinal Charles Borromeo. ABN AMRO is primarily owned by the Dutch House of Orange-Nassau through proxy share holding companies and has a Zurich branch. The Nassau-Weilberg family of Luxembourg have part ownership over some banks in Luxembourg where banking is also private. Mid Eastern royal families also have proxy banks set up all over Switzerland and keep their hidden wealth of trillions from oil profits usually in private banks in Luxembourg before being siphoned through the BIS.

These banks are in contract with other larger Swiss banks including the Bank for International Settlements which is located in Switzerland and it works as a central bank for dozens of central banks around the world and is siphoning off wealth and redistributing this wealth as payments to criminals and criminal government agencies disguised as loans. The BIS is involved in siphoning off wealth from nations through fraudulent tax contracts and also oversees and regulates international financial transactions which are used for making bribes disguised as investment loans. The BIS provides loans to governments used for financing oppression, militarized gang stalking, and criminal military operations. Charitable foundations are involved in making criminal payoffs as well. These pay offs go to regional or local managers of secret societies and criminal organizations which tend to be Freemasons, papal knights, royal knights, and crime bosses which all generally own private businesses. They receive payoffs and bribes disguised as loans which they then distribute to their wage earners in secret societies and organized crime through cash or fake online donation accounts and these wage earners are involved in organized gang stalking, harassment, vandalism, making threats, spreading propaganda, cyber stalking, hacking, censorship, and even murder. So if an investment firm gives a loan to a private company and that company never pays it back and the investment company does not go after them it was probably a bribe or criminal financing. This is similar to what the Nazis did in Germany. The German-Swiss Baden-Zahringen family were the founders of Berne, Switzerland and the Erlachs work for them. The German Hohenzollern family ruled Neuchatel, Switzerland and they established Deutsche Bank which was in a Nazi contract with the BIS during WWII. The House of Hohenzollern have a portion of covert ownership of the BIS.

The Bank for International Settlements has foreign agents from various nations involved and especially agents from Italy which lead this international criminal banking movement with Mario Draghi, Fabio Panetta, and Ignazio Visco as Board Directors for the BIS and they are all connected to Rome. Agustin Carstens is the General Manager of the BIS and a Mexican banker. The Bank for International Settlements is designed as a tower and really operates as a loan tower managed by the Torlonia banking family of Rome. The Torlonia family are the treasurers of the Vatican and they have French ancestry. The House of Torlonia owns the Banca del Fucino in Rome. The word Tor in French means tower and Ionia is similar to the word loan. The Torlonia name means Loan Tower which is what the BIS is. Prince Giulio Torlonia is President of the Banca del Fucino and a top overseer of the Bank for International Settlements. Both Switzerland and the Vatican City State used the square shaped flag and the Swiss flag is the same as the Italian royal family's coat of arms. The Torlonia family are intermarried with the royal family of Luxembourg and Prince Guillaume of Luxembourg worked for the IMF and former Minister of Finance in Luxembourg Luc Frieden was Chairman of the Board of Governors for the IMF and World Bank Group. The BIS works with the IMF. The International Monetary Fund and World Bank Group are both headquartered in Washington DC and operate in the

same way making criminal pay offs disguised as loans to corrupt bureaucrats and politicians managing nations and also loans to corporations for the purpose of globalization and enabling organized crime. The Group of 30 oversees the IMF and World Bank Group. Mario Draghi is a member of the G30. Cornelius Brandi and the Erlach criminal tax counsel are enabling these crimes and he is a German relative of the Venetian Brandolini family of Venice. John-Maximilian Henry Fane de Salis the 10th Count de Salis-Soglio is a Swiss-Italian-Holy Roman noble. His father was a Knight of Malta whose wife was of Venetian nobility. Venice was an international banking center. The House of Savoy are the Italian royal family and they live in Switzerland. The Savoy name refers to savings. Prince Emanuel Filiberto of Savoy has the official title of Prince of Venice.

Cornelius Brandi is a German partner and Chairman of the Executive Committee for CMS which merged with Von Erlach Poncet. It seems after the merger CMS was called CMS von Erlach Poncet and later changed back to CMS to cover up the Erlach family.

Rudolf von Erlach works for Staiger Law and for the Hayman Von Erlach law firm. The Erlachs were founders of Von Erlach Poncet which merged with CMS.

Andreas von Erlach works for Staiger Law and for the Hayman Von Erlach law firm. The Erlachs provide advisement for international banking criminals.

The Erlachs former Erlacherhof Mansion is the headquarters for the Mayor of Bern, Switzerland.

Archduke Sigismund of Habsburg-Lorraine the Grand Duke of Tuscany resides in Switzerland and works in private banking. He is a high authority over Swiss banking.

Prince Lorenz of Belgium and of the House of Austria-Este or Habsburg-Este and the Italian Duke of Modena and Italian Duke of Ferrara is a managing partner at Gutzwiller Bank in Basel, Switzerland a private bank founded by the Gutzwiller family which are the top banking dynasty in Switzerland. Prince Lorenz is also a board director for Six Group with Jurg Gutzwiller. Prince Lorenz began his banking career in Rome, London, and Paris and he works as a banker for the Black Nobility, British royals, Belgian royals, and House of Habsburg.

Archduke Rudolf von Habsburg-Lorraine is the managing director for Triple A Gestion located in Switzerland and was a General Manager for the Bank of Nova Scotia's branches in Belgium and the Netherlands. Archduke Rudolf is a relative of Prince Lorenz. They are both Habsburgs.

Peter Handschin, Stephane Gutzwiller, Francois Gutzwiller, and Prince Lorenz are managing partners at E. Gutzwiller & Cie Banquiers which is located in Basel,

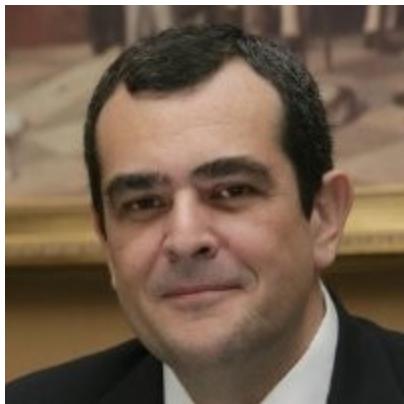

Switzerland. The Bank for International Settlements is located in Basel, Switzerland and is called the "Central Bank for Central Banks" and is in contract with most major central banks around the world. The royals and nobles are stealing wealth from nations through tax contracts and loan contracts with nations and the BIS. The United States which is a federal corporation has been in tax contract with the Kingdom of England, Kingdom of Belgium, and Irish Government through the 1871 District of Columbia Organic Act.

Jurg Gutzwiller is the CEO of Entris Banking and Entris Holding which manages 35 Swiss regional banks of a total of 60 Swiss regional banks.

Philippe Hottinguer is the founder and head of Philippe Hottinguer Group and part of the Swiss-French Hottinguer family.

Baron Rodolphe Hottinger is a top Swiss banker as the head of Hottinger & Cie Groupe Financiere and Financiere Rodolphe Hottinger.

Baron Frederic Hottinger is a dual French-Swiss citizen and the head of Hottinger Group. Baron Frederic resides in the Bahamas. The Bahamas is a major center for money laundering.

Baron Jean-Philippe Hottinguer with his wife on the left. Baron Jean-Philippe is the Chairman of the Supervisory Board of Banque Hottinguer in France.

Prince Eric Sturdza is a Romanian prince and founder and owner of Banque Eric Sturdza located in Switzerland. The Romanian House of Hohenzollern which ruled Romania migrated to Switzerland. Prince Eric Sturdza works with German, Italian, and British royals and nobles who conceal their wealth in private Swiss banks.

Baron Benjamin de Rothschild with his wife Ariane de Rothschild are the billionaire owners of Edmund de Rothschild Group which specializes in private banking. These Rothschilds live and operate in Switzerland and are nobles under the House of Habsburg.

Prince Max of Liechtenstein is the CEO of Liechtenstein Global Trust or LGT headquartered in the nation of Liechtenstein which is ruled by the royal family and they are worth billions. Banking is private in Liechtenstein like in Switzerland. LGT Group has Swiss offices and banks in Geneva, Lugano, Berne, and Zurich.

Prince Lorenzo Rocco di Torrepidula is a Partner, Head of Wealth Management, and member of the Executive Committee for REYL & Cie bank headquartered in Geneva, Switzerland. The Rocco di Torrepidula family are an Italian nobility and he works for the House of Savoy and Black Nobility.
